

The Future of the Human Body

And The Need for Renaissance 2.0

"Supermen of Vulcan, Supermen of Venus, of Mercury, of the Sun, will unite with earth-existence. But if human beings persist in nothing but opposition to them, earth-existence will pass over into chaos in the course of the next few 1000 years."

Rudolf Steiner, *A Picture of Earth-Evolution in the Future*, May 13, 1921, GA 204.

Futurologists such as Ray Kurzweil predict a time is coming when humans will merge with robotics. Rudolf Steiner's similar statement is the "welding together of Mankind with machines will be a great and important problem for the rest of the earth-evolution." *The Wrong and Right Use of Esoteric Knowledge*, Lecture 3, Nov. 25, 1917

Workshop and Discussion

Saturday June 2, 2018, 10 a.m – 4 p.m.

Trinity St. Paul Centre, 427 Bloor St. W.

\$40 general admission, \$20 for seniors and students

In this day long session, Andrew will focus on things we can do now to deal with the impacts of technology (EMF pollution, virtual reality, attention deficit, ...) both in our daily lives as individuals and as groups striving to 'nudge' the development of new technologies in a healthy direction.

10-noon: Counterbalances to use of technology

12-1 pm: Lunch break

1-2 pm: Eurythmy (w/Marianne Else)

2-3 pm: MysTech: towards a morally integrated technology

3-4 pm: Q & A

The Q & A session is an ideal opportunity to ask about the future predictions of Rudolf Steiner – the end of sexuality, the return of the Moon, development of consciousness and so much more!
